PROFESSIONAL SUMMARY

Economics M.A. graduate with experience in data analysis, reporting, data cleaning, and applied research. Skilled in Excel, R, SQL, and statistical analysis, with experience building datasets, validating records, identifying discrepancies, and translating findings into clear written summaries.

EDUCATION

San José State University – M.A., Economics Dec 2025

Relevant Coursework: Econometrics, Macroeconomic and Microeconomic Analysis, Health Economics

University of California, Davis – B.A., Economics June 2020

Relevant Coursework: Business Data Analytics, Time Series Analysis, Analysis of Economic Data

RELEVANT EXPERIENCE

Capstone Graduate Research Project — San José State University 2025

- Built a state-level panel dataset covering 2010–2023 using HUD, Census, unemployment, population, and housing stock data.
- Cleaned, merged, and validated data in Excel and R, creating variables such as homelessness per 100,000 residents and housing stock per 100,000 residents.
- Applied fixed-effects regression models in R and produced summary statistics, regression tables, and visualizations to explain findings.

State Street – Associate II Nov 2021 – Nov 2022 | Remote

- Supported financial reporting and reconciliation for a major institutional asset manager across approximately 50 funds.
- Assisted with month-end and year-end reporting by validating fund balances, identifying breaks, and resolving discrepancies before downstream reporting.
- Used Excel heavily, including VLOOKUPS, structured templates, and data validation checks, to review financial data and streamline recurring reports.
- Documented workflows and trained a team member on reconciliation and reporting processes.

City of Sacramento — Policy Research Analyst Intern Sept 2019 – Mar 2020

- Researched workforce development programs, education data, labor regulations, and local policy resources to support the Thousand Strong youth employment initiative.
- Synthesized policy and program information into a practical guide used to support implementation and coordination by the Office of the City Manager.
- Supported constituent correspondence, meeting preparation, and cross-department communication related to youth employment and workforce development programs.
